## Tug of War By Editor

The teams descended on Woody's pitch for another Green and White event – a best of three Tug of War. First up were the Juniors and both teams matched each other's strategy of lining up on opposite sides of the rope to the man in front. For the White team, **ROBERT LOQUERCIO** stood in the anchor position, while **TYLER FIELD** and **CHARLIE SANFORD** stood at the front of the rope looking to dig their cleats in and help their team get off to a good start. On the Green team, **BRANDON JOHNSON** took to the anchor position and younger campers **ZACH FIELD** and **JJ BARBER** stood at the front of the rope. Having older campers at the front of the rope was a brilliant strategy for the White team as they took the first game with ease. The Green team mixed things up in the second game but this was to avail as once again the White team dug their feet in and pulled towards a 2-0 victory. In the Intermediate division, the White team's **DRAEDYN SANFORD** took to the anchor position, looking to outpull the Green team's anchor, **DREW HERZBERG**. The White team placed both **SPENCER AUSLANDER** and **MATTHEW HARFIELD** at the front of the rope, while the Green team placed **JACOB SCHNEIDER** and **JOEY HOFFMAN** at the front. Thanks to the leadership of **CHARLIE EISENBERG**, the Green team pulled to a convincing first round win. In the second round, **BRADY WEISS** took control for the White team and led his team in a hard-fought game. However, despite **BRADY'S** leadership, **JACOB SCHNEIDER** put everything he had into pulling and helped his team to another victory and take the tie 2-0. Last up were the Seniors in a winner takes all scenario. The Green team placed **GAVIN BRAMWIT** in to the anchor position, while the White team used **JACK BEHAR**. Leading the pull from the front was **EMILIO QUINTANAL** and **JEREMY ZELKEN** for the Green team and **ISAAC MILLER** and **LEO NECHELES** for the White team. In the first round, the White team began their charge and easily pulled the Green team over the line. The Green team needed to change their tactic and did just this by moving **SHANE KOEHLER-DAVIS** to the front of the rope. This move seemed to work well as the Green team took the second game and tie the contest 1-1. As we headed into a winner takes all game, both teams stuck to their strategies and began pulling. In a very close game, neither team seemed to be making much progress, until **JACK BEHAR** dug his cleats into the ground and began pulling the White team forward. The White team were only two feet away from winning but the Green team were not to be beaten. They managed to gain some footing and began their charge, pulling the White team over the line, to much celebration. Congratulations to the Green team for taking the overall Tug of War victory and to all Seniors taking part in the amazing back-and-forth third game.

## Circle Dodgeball By CJ Ashley

What was supposed to be a night Twi-Light League, turned into a surprise Green and White event known as Circle Dodgeball, presented by **WOODY** and **JEREMY**. Circle Dodgeball is a twist on regular dodgeball where one team starts in the middle of a large circle and are surrounded by the opposing team instead of facing off on opposite sides of a court. The game is a lot tougher than traditional dodgeball because you do not know where the ball could be coming from. The action began with the counselors taking part in a demonstration game and was won by Cabin 4 counselor **JACKSON WUSTNER**, who stayed in the circle for an impressive 2minutes and 7seconds. During the first round, Intermediates **CHARLIE EISENBERG** and **HARRISON HOFFMAN** showed excellent skills to dodge the onslaught from the opposing White team and ultimately lead the Green team to victory. In the Senior division, we saw another competitive game as their experience proved to be vital. **SETH SCHOR** proved to be the ultimate dodger and was able to dodge ball after ball throw his way. After a whopping 3minutes and 15seconds, **SETH** was finally hit and eliminated but had shown his fight and determination and led the White team to victory. The Juniors were also able to get in on the action and in both of their games, the White team proved to be too strong, thanks to the leadership of captain **THEO GALPER**. The White team won the first game by over 1minute and 30seconds and won the second by 50seconds. Congratulations to all for taking party and playing with true determination, and to the Green team for taking the win.
